BORDERVIEW LLC is registered with the U.S. Department of State as an Exporter of USML Category I Defense Articles, and with the U.S. Department of Commerce as an Exporter of Shotguns and related articles. All exports are subject to the prior approval of the appropriate federal agencies. Export Service Fees, as listed above, are due prior to application, and regardless of the response of the pertaining agency (delivery/shipping expenses are, however, refundable). Employees of BORDERVIEW LLC will give their best opinion on the feasibility of an export, but in no case is this a substitute for law or the actual decision of the U.S. Government. Merchandise orders placed through Dave's Sports Shop require full payment prior to Export License application. The U.S. Dept. of State requires 4-6 weeks for export licensing decisions. The "5% Upcharge" portion of the Export Service Fee goes to the U.S. Department of State as part of our Registration fees. All prices are listed in US Dollars. Canadian-side customer (importer) is responsible for (1) obtaining an International Import Certificate ("IIC") from Foreign Affairs & International Trade Canada ([instructions link](#)) ([application link](#)), (2) issuing a Purchase Order stating their desired purchase, whether directly from Dave's Sports Shop, or a transfer of a firearm purchased through another U.S. seller, and (3) for complying with all Canadian importing, possession, transportation, storage and acquisition laws, including registering of the firearm in the Canadian Firearms Centre database and possession of a current Possession and Acquisition License (PAL).
