All exports are subject to the prior approval of the appropriate federal agencies. Export Service Fees, as listed above, are due prior to application, and regardless of the response of the pertaining agency (delivery/shipping expenses are, however, refundable). Employees of BORDERVIEW LLC will give their best opinion on the feasibility of an export, but in no case is this a substitute for law or the actual decision of the U.S. Government. Merchandise orders require full payment prior to Export License application. The U.S. Dept. of State requires 4-6 weeks for export licensing decisions. The “5% Upcharge” portion goes to the U.S. Department of State as part of our Registration fees. All prices are listed in US Dollars. Customer / Importer is responsible for (1) obtaining a government-issued Import Permit (and certified translation into English language if not already), (2) issuing a Purchase Order stating their desired purchase, whether directly from BORDERVIEW, or a transfer of a firearm purchased through another U.S. seller, and (3) for complying with all importing, possession, transportation, storage and acquisition laws within their home country.
